

Michael Augustine

AI Infrastructure & Automation Engineer

St. Louis, MO • <https://www.linkedin.com/in/michael-augustine-8926a2164/> • <https://github.com/augforce>

PROFESSIONAL SUMMARY: Operations and AI Infrastructure Engineer with 13+ years of experience specializing in the secure intersection of enterprise IT, cloud architecture, and production-grade AI deployments. Proven track record of architecting compliant Azure and Google Cloud environments, engineering custom Model Context Protocol (MCP) data tools, and designing strict security guardrails to protect sensitive corporate data. Adept at building automated, backend API workflows that eliminate operational bottlenecks, slash administrative search times, and safely scale business capabilities without adding infrastructure overhead.

- **AI & LLM Integration:** Agentic Workflow Design, Model Context Protocol (MCP), Prompt Hardening, Token/Rate Limiting (TPM/RPM), Semantic RAG.
- **Cloud & DevOps:** Google Cloud (Cloud Run, BigQuery, Vertex AI), Microsoft Azure AI Foundry, Cloudflare (Pages, Functions, Cache API), FastAPI, Docker Compose.
- **Security & Compliance:** HIPAA, PII, and SOC2 Frameworks, Cross-Cloud Workload Identity Federation (WIF), Access Control (IAM).
- **Enterprise Systems:** Google Workspace SuperAdmin, Apple Business Manager (MDM), Windows/macOS/ChromeOS Architecture, Server Administration.

WORK EXPERIENCE

NETWORK NINJA, INC | Remote

AI Operations and Tech Support Engineer | Oct 2023 – Present

- **Cloud AI Environments:** Architect and manage secure corporate AI environments across Azure AI Foundry and GCP, overseeing endpoint provisioning and access controls.
- **Security Guardrails:** Enforced company-wide AI safety policies by implementing content filters and rate limits to prevent data manipulation and control API costs.
- **Automated Security Auditor:** Built an on-demand security tool using FastAPI and AI agents to instantly scan and identify 20 identity and data exfiltration risk vectors.
- **Private AI Auditing Tool:** Engineered a secure AI database tool that allows conversational log audits via BigQuery while keeping raw employee records completely offline and protected.
- **AI Compliance Agent:** Deployed an automated AI subagent to rapidly vet third-party software against internal security and HIPAA policies.
- **Knowledge Base Automation (Scout):** Built a secure, local AI search tool that streamlined team onboarding by allowing staff to instantly query internal policies and procedures in plain English.

FERGUSON FLORISSANT SCHOOL DISTRICT | Florissant, MO

Senior Technology Specialist | Jan 2011 – Oct 2023

- **Enterprise Scale:** Managed the lifecycle, security, and OS updates for a fleet of 1,000+ deployed Chromebooks.
- **Network Operations:** Oversaw daily server operations and network stability across multiple campus locations, providing rapid-response technical support.
- **Strategic Advisory:** Advised administration on emerging educational technology needs and large-scale hardware deployment strategies.
- **Staff Enablement:** Trained staff and students on new hardware/software implementations, bridging the technical gap for non-technical users.

INDEPENDENT AI ENGINEER & CONSULTANT

AI Solutions Architect & Developer | February 2026 – Present

- **Serverless AI Automation:** Developed and deployed a full-stack, serverless AI application using Cloudflare Pages and Functions to automate client report generation.
- **Secure API Orchestration:** Engineered a secure backend proxy architecture to safely connect custom workflows to the GoHighLevel CRM, Anthropic (Claude), and Google APIs.
- **Cost & Risk Mitigation:** Implemented server-side security logic and per-IP rate limiting via the Cloudflare Cache API to protect client systems from malicious billing exhaustion.
- **Custom AI Workspaces:** Configured and deployed localized AI chat platforms featuring task-based model routing systems to optimize performance and budget.

EDUCATION

- DeVry University- BS, CIS/Computer Forensics (2010)
- Community College of the Air Force- AAS, Information Management (2007)

CERTIFICATIONS

- Google Generative AI Leader
- Microsoft Azure AI Engineer Associate
- Microsoft Azure AI Fundamentals
- CompTIA A+
- Google Certified Educator
